Annexure B: PAIA Access Form16

1.1. Introduction

- 1.1.1. The 1996 South African Constitution, by providing a statutory right of access on request to any record held by the state as well as access to records held by private bodies, entrenches the fundamental right to information.

The Promotion of Access to Information Act 2 of 2000 (“the Act”), which came into effect on 9 March 2001, seeks to advance the values of transparency and accountability in South Africa and provides the mechanism for requesters to exercise and protect their constitutional right to request access to a record.

- 1.1.2. The Act establishes the following statutory rights of requesters to any record of a private body if:

- That record is required for the exercise or protection of any of his or her legal rights;
- That requester complies with all the procedural requirements; and
- Access is not refused in terms of any ground referred to in the Act.

In terms of the Act private bodies are required to publish a manual to assist requesters who wish to request access to a record.

- 1.2. Availability of the Hymax PAIA Manual and Entry Point for requests

- 1.2.1. This document serves as the Hymax manual (“the Manual”) in accordance with the requirements of section 51 of the Act to facilitate access to records held by Hymax. A copy of this Manual is available to the public in a PDF (“Portable Document Format”) version on the website of Hymax at www.hymax.co.za or on request from the Information Officer referred to in this Manual. Hymax endorses the spirit of the Act and believes that this Manual will assist requesters in exercising their rights.

- 1.2.2. In summary, the Manual provides information on the:

- Contact details of the Information Officer;
- Structure and functions of Hymax;
- Subjects and categories of records that are held by Hymax; and
- Procedure that needs to be followed and criteria that have to be met by a requester to request access to
- a record

- 1.3. Who may request access to information:

1.3.1. The Act provides that a requester is only entitled to access to a record if the record is required for the exercise or protection of a right. Only requests for access to a record, where the requester has satisfied the Information Officer that the record is required to exercise or protect a right, will be considered. A requester may act in different capacities in making a request for a record. This will influence the amount to be charged when a request has been lodged.

1.3.2. Requesters may make a request as:

- A personal requester who requests a record about him/herself;
- An agent requester who requests a record on behalf of someone else with that person's consent and where it is required for the protection of that person's legal right;
- A third-party requester who requests a record about someone else with that person's consent and where it is required for the protection of that person's legal right; and
- A public body who may request a record if:
 - It fulfills the requirements of procedural compliance;
 - The record is required for the exercise or protection of a right; and
 - No grounds for refusal exist.

1.4. Contact Details of Hymax Information Officer: Sec 51 (1) (a)

1.4.1. The Chief Executive Officer of Hymax has delegated his powers to the Information Officer below in terms of the Act to handle all requests on Hymax's behalf and ensure that the requirements of the Act are administered in a fair, objective and unbiased manner.

2.2.1. Hymax has been in operation since 2003 and is licensed by the Independent Communications Authority of South Africa (ICASA). Hymax are a first-tier internet and managed network service provider offering services to medium, large and corporate market. We are a proud strategic provider for over 700 large scale clients within the South African market alone, and are well equipped across both infrastructure, and individual expertise, to manage your organisation’s network environment and requirements.

Our offering includes fully managed network services including national and international MPLS VPN solutions, SDWAN, Cloud services, IP telephony services (PABX, Teleconferencing, audio conferencing and Collaboration), Metro Ethernet access, Security, LAN Management, Datacentre and a range of Internet and last mile access solutions.

We have the capabilities to design, implement and manage networks of any scale with a direct national footprint in South Africa and international networking relationships with BT, Level 3 and Cogent to mention a few. We offer real choice and flexibility, as we are the only company to have established our own core services with independent hosting service providers.

Our Network operations centre (NOC) is operated by qualified technical staff on 24 x 7 x 365 basis with a focus on pro-active call management and network availability monitoring with e-mail and SMS notifications. As a “service focussed” business with emphasis on personal relationships, innovative network designs and SLA

guarantees, we have developed an impressive track record contributing in excess of ten successful years of managed services delivery.

One of our key drivers is to assist companies in driving down costs and establishing quality networks that support their respective business needs. A major contributor to the quality of our network is that we have built it on a true Next Generation Network (NGN) architecture. We are therefore able to provide integration into multiple last mile technologies. We support full convergence, facilitating managed-converged networking through Diginet, ATM, Fibre, Wireless, ADSL, APN and VSAT last mile technologies that integrate into a single core network.

4. Access Procedure and Requests

The purpose of this section is to provide requesters with sufficient guidelines and procedures to facilitate a request for access to a record held by Hymax.

It is important to note that an application for access to information can be refused in the event that the application does not comply with the procedural requirements of the Act. In addition, the successful completion and submission of an access request form does not automatically allow the requester access to the requested record. An application for access to a record is subject to certain limitations if the requested record falls within a certain category as specified within Part 3 Chapter 4 of the Act.

If it is reasonably suspected that the requester has obtained access to HymaxX records through the submission of materially false or misleading information, legal proceedings may be instituted against such requester.

4.1. Guidance on Completion of Prescribed Access Form: [Sec 51 \(1\) \(e\)](#)

Please take note that the prescribed access form must be completed in full, failure to do so will result in the process being delayed until such additional information is provided. Hymax will not be held liable for delays due to receipt of incomplete forms. 3. Type or print in BLOCK LETTERS an answer to every question.
4. If a question does not apply, state "N/A" in response to that question.
5. If there is nothing to disclose in reply to a particular question, state "nil" in response to that question.
